to restate my previous email i had my sister e mail my thought,s she is more professional then i am. i just want to get across to you. the transmission lines coming out the back sherco coal plant are humongous the biggest line,s i ever seen. then sherbune county 8 in clear lake township you see little bity wire coming from a solar farm to highline. i just don,t believe excel can replace the good reliable clean power from sherco coal plant and all the great paying job,s. the coal mines in wyoming and montana and the burlington northern railroad worker,s. i was born and raised on sherbune county 8 in clear lake twm. on a dairy farm my brother sold the farm to a clear lake township board member that plan,s on getting rich leasing out the my home farm land where i was kid on . it hurt,s me and lot other neighbor,s are beautiful country side and farmland getting uglid up with solar panel,s
