Re: ***In the Matter of the Application of Dodge County Wind, LLC for a Site Permit for the up to 259 MW Large Wind Energy Conversion System in Dodge and Steele Counties, Minnesota, Docket No. IP6981/WS-20-866***

Replacement of Appendix A, Map 3

Dear Mr. Seuffert:

On January 12, 2022, Dodge County Wind, LLC ("DCW") submitted its Amended Application for a Site Permit ("Amended Site Permit Application") to build up to a 259 MW Large Wind Energy Conversion System and associated facilities in Dodge and Steele Counties, Minnesota. Included in Appendix A of Amended Site Permit Application was Map 3, "Turbine Layout and Constraints." Although the applicable "wind buffers" are listed in the legend of Map 3, the figures showing the applicable "wind buffers" for each turbine (e.g., 3x5 rotor diameter buffer) were inadvertently omitted from the maps included in Map 3. DCW, therefore, submits with this filing a corrected Map 3, which shows the applicable wind buffers for each turbine within the maps themselves. DCW apologizes for this oversight.

Thank you for your attention to this filing.

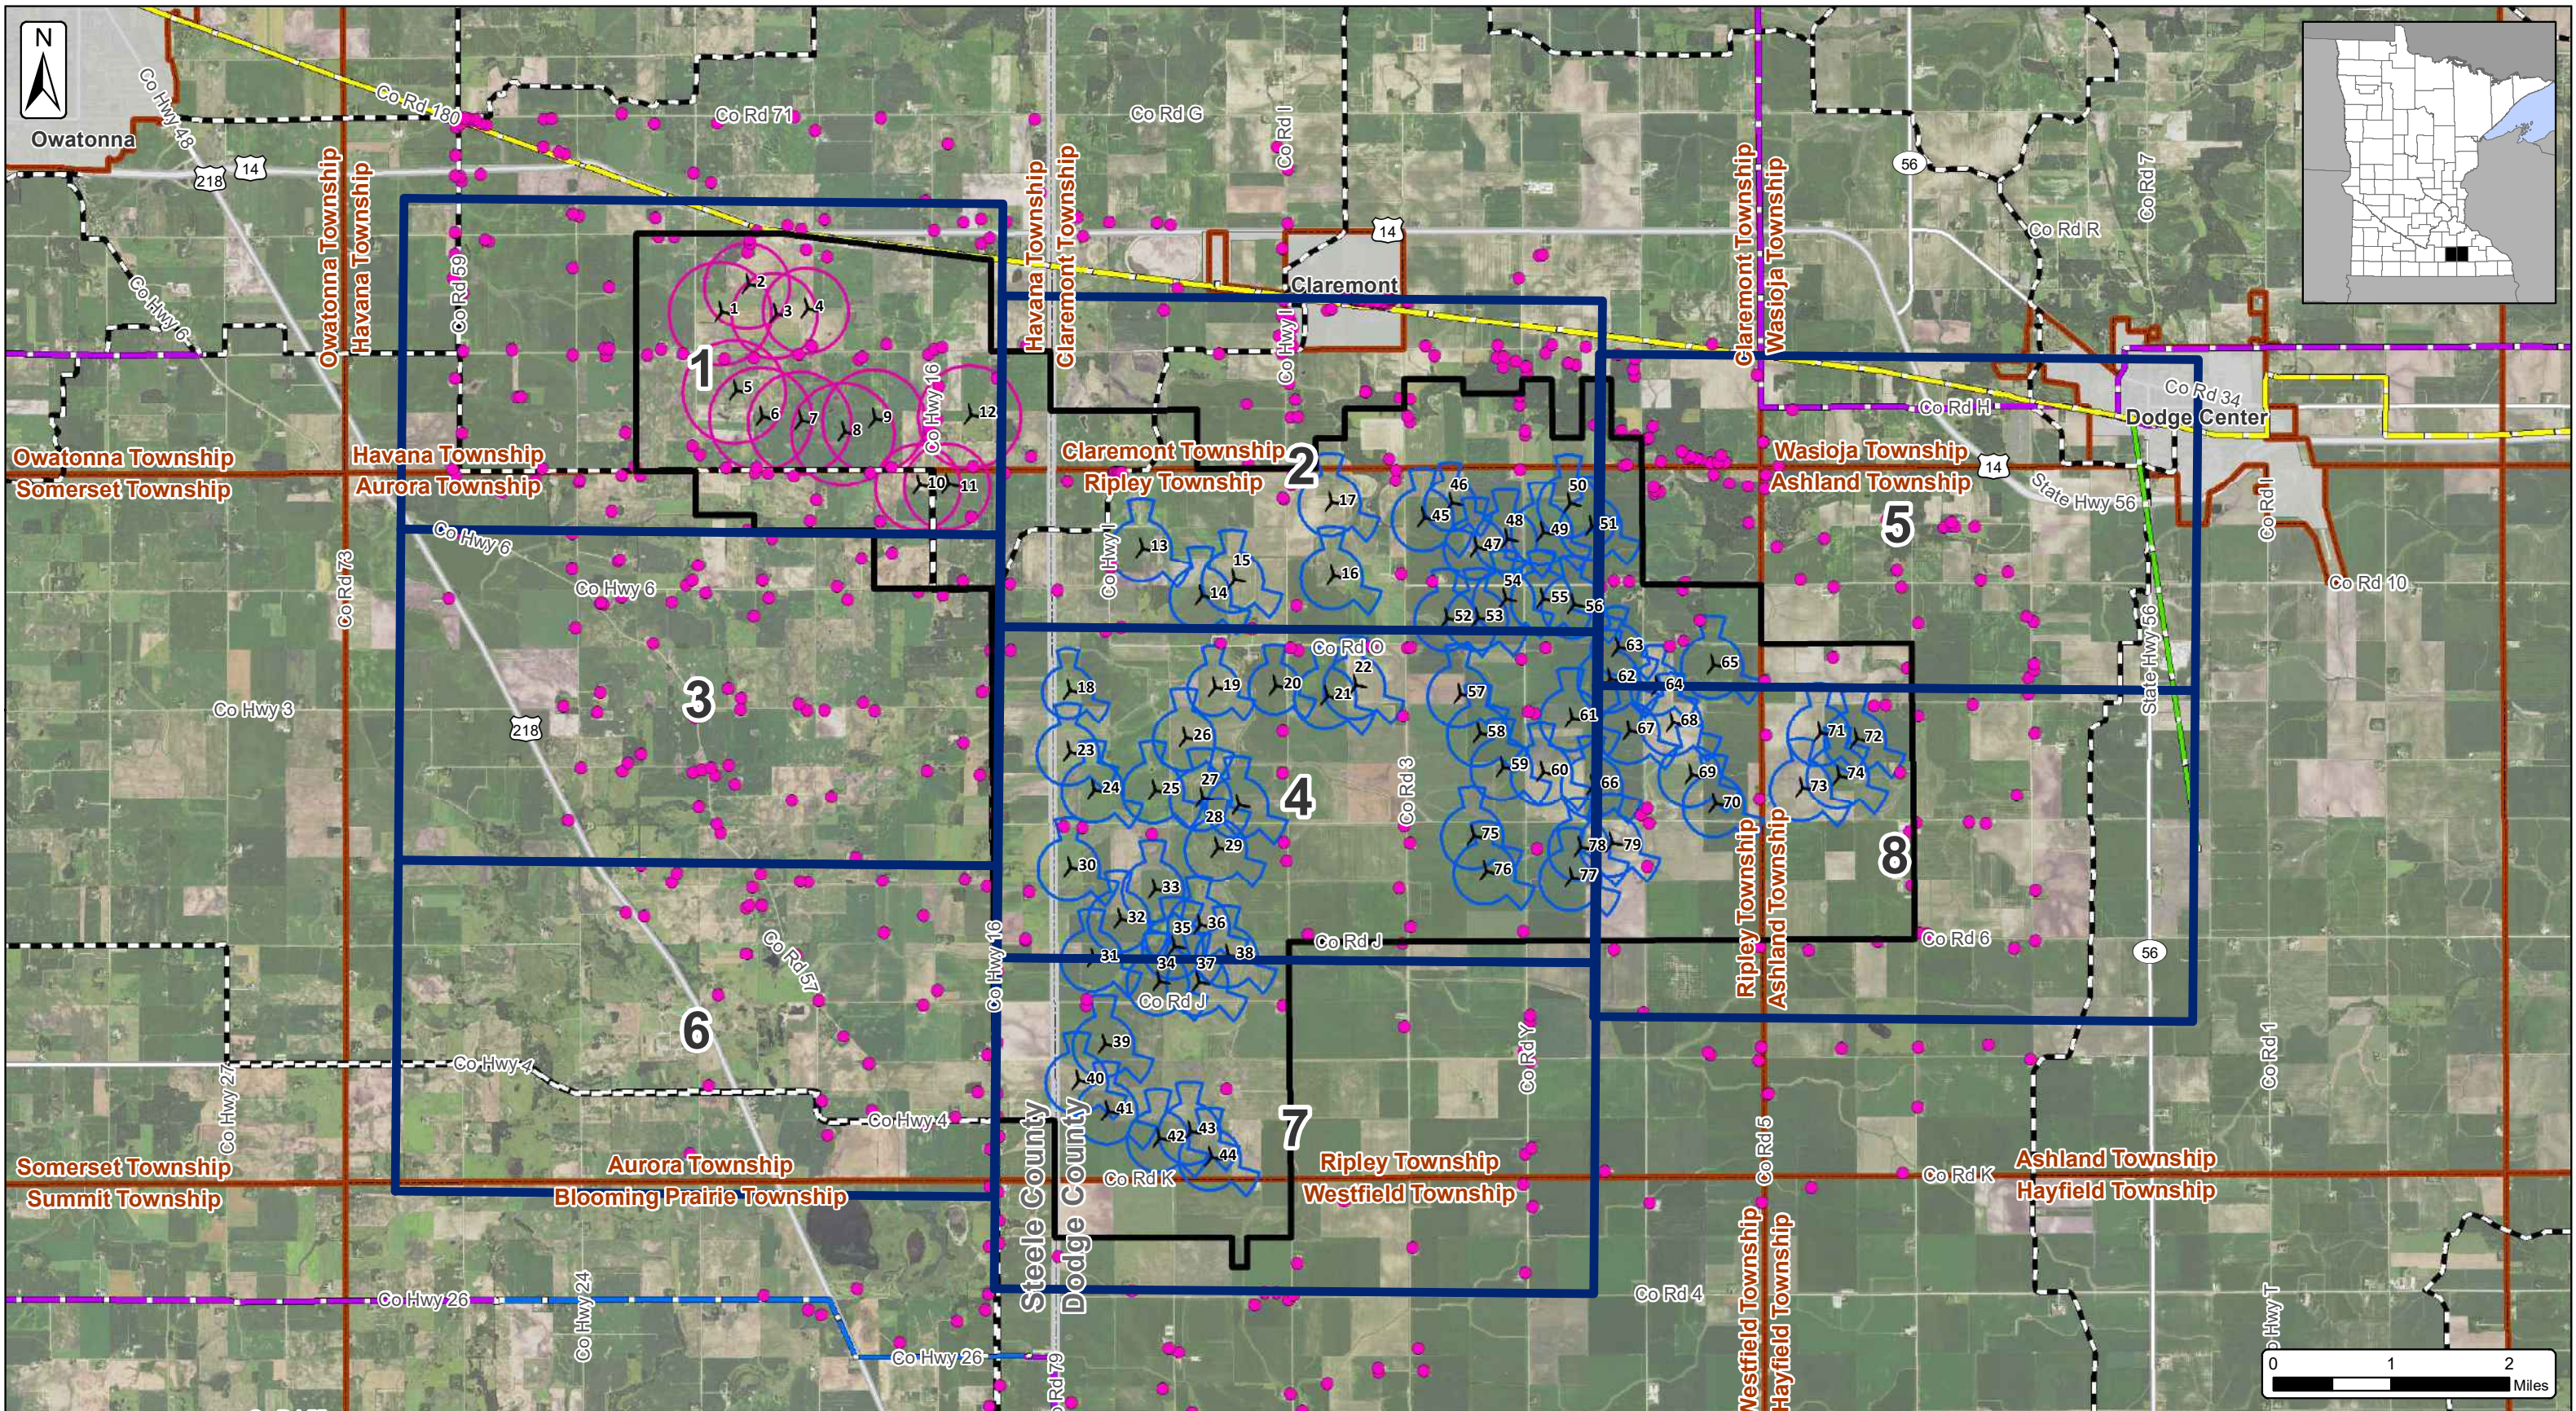

Respectfully Submitted,

Stinson LLP

/s/ Brian M. Meloy
