

Questions and Answers

Line 3 Pipeline Replacement Project February 6, 2017

Q: Part of the proposed Line 3 project is the decommissioning in-place of Enbridge's existing Line 3. Will this topic be analyzed in the environmental impact statement (EIS)?

A: Yes, Enbridge's proposed decommissioning in-place of existing Line 3 will be analyzed in the EIS. See section 4.2 of the [final scoping decision document](#).

The [Canadian National Energy Board has completed an assessment](#) of that portion of the Line 3 project proposed to be constructed in Canada. The assessment includes discussion of the potential impacts of decommissioning in-place and the National Energy Board's recommended conditions to mitigate these impacts.
