1 MR. TERRANCE ROY: My name is My last name is Roy, R-O-Y, Junior, 2 Terrance. T-E-R-R-A-N-C-E. 3 My message is that the Line 3 4 5 replacement project needs to change its method of decommissioning to require Enbridge to take the pipe 6 7 out when they put the new one in. I feel that the minimum standards of 8 9 federal guidelines are inadequate for Minnesota and eventually that pipe is going to leak. 10 It's going 11 to rot away and leak, even with cathodic protection and monitoring. It may be awhile, but that pipe 12 will rot away and what's ever inside or what it's 13 made up of will be in the ground. 14 15 And I think the need of pipelines is We just need to make it safer and better 16 for the environment and people of Minnesota. 17 18 (Comments concluded.) 19 20 21 22 23 24 25
