 PLEASE INCLUDE THIS COMMENT ON THE DEIS FOR
 LINE 3 IN DOCKETS CN-14-916 AND PPL-15-137. 07 JUL 2017 PM 4:1

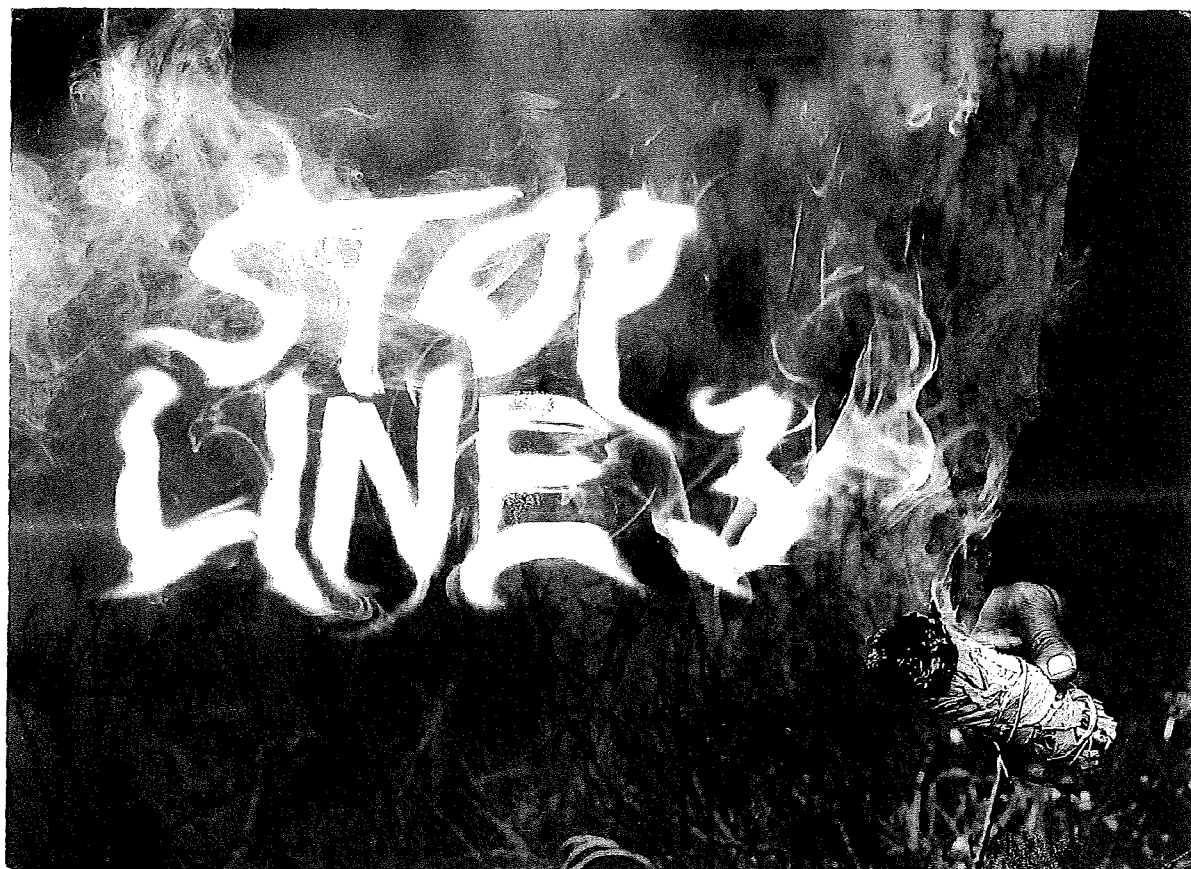

Because of water, we are alive.
 Building this pipeline runs the
 nearly inevitable risk of a spill
 that would contaminate Gichigami,
 Lake Superior, many of our river
 systems, lakes and wild rice beds.
 The short time that someone will benefit
 from this pipeline is nothing compared
 to the value of our clean waters
 in Minnesota. ~~Stop~~ Stop Line 3!

 It contributes to the destruction of

The image features a vibrant blue background with a wavy, textured pattern resembling water. Scattered across this background are several green footprints of varying sizes and orientations, suggesting movement through the water. In the center-left area, the words "WATER IS SWEET" are written in a dark, hand-drawn, slightly irregular font. The overall composition is simple and evocative, likely intended as a visual metaphor or a child's artwork.

The image shows a rectangular painting on a light-colored surface. The painting itself has a complex, textured appearance with various shades of blue and white, suggesting a water-like or marbled effect. Overlaid on this background is the text "water is smooth" in a dark, handwritten-style font. The word "water" is on the first line, "is" is on the second line, and "smooth" is on the third line. The text is centered horizontally. There are also some green, brush-like strokes scattered across the painting, particularly around the text.

A rectangular piece of paper with a marbled pattern in shades of blue and green. The word "Dope" is written in the center in a bold, black, cursive-style font. To the left of the word, there is a small, faint, and partially obscured mark that appears to be "Dope" written in a lighter ink or as a watermark.

It's our job to secure new forms of energy that support long term sustainable life and commerce. Tar sand oil from Canada is not something Minnesota wants to be a part of. Lino 3 and Enbridge offer us an opportunity to show the world a new way forward. No Lino 3. Planting another pipe in the ground that expires in 60 years is not the answer. Tell Enbridge to build wind & solar in Minnesota for my niece & her grandchildren. (see feet & handprints above)

What will you do
to keep our women
and children safe
come 2018 construction
of the proposed pipeline?
Sex trafficking
have you heard of
that?

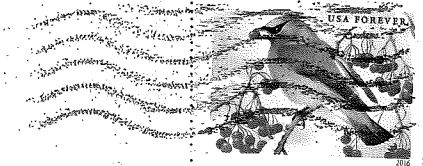

SINCERELY,

Maria

Everything on Line 3 is a
disastrous plan. Start
over beginning w/ the
mess you made by
the PUC
