Hello - I am faxing to voice my concern about Enbridge's proposed new Line 3 pipeline (Dockets CN-14-916 and PPL-15-137). The proposed line goes through sensitive wildlife areas as well as being detrimental to tribal land. Also, crude oil is on the way out. I'd prefer to see permits issued for clean sources, such as wind and solar, rather than polluting oil. Thank You Carrie Quast, New Ulm MN
