Jamie MacAlister:

We are in favor of Enbridge's Line 3 Replacement Project. We believe Enbridge is a responsible energy company, seeking a safe way to transport energy. We are residents of Itasca County. The potential employment possibilities for the construction of the project, as well as the future of industry in our region, depend upon safe, affordable energy, which this project will provide. We also support energy independence for our country. We strongly urge the DOC to allow the Line 3 Replacement Project to go forward.

Sincerely,

Ronald L. Ulseth

Dear Ms. MacAlister,

My family and I fully support this project. It will greatly benefit our community!

Sincerely,

Wanda Ulseth

Please share your comments on the Line 3 Project Draft EIS. What could be improved in the EIS? What is missing?

It is time to move this project forward. Any further delays are unacceptable. The APR route is a reasonable plan. Please support the APR and move this process forward. Pipelines are the safest and most efficient way to move oil and gas.
