

Plate 52. Nineteenth century grave marker, looking west.

NRHP Eligibility: Not Eligible

This cemetery is recommended *Not Eligible* for listing in the NRHP. Following the guidance under Criteria Consideration D, this cemetery does not exhibit importance under Criteria A, B, or C. The cemetery does not appear to be associated with events important in the history of Castle Rock township or the state of Minnesota. If the circa 1868 Minnesota Conference Evangelical Church remained standing, it seems likely that a Criteria A eligibility could be explored; however, it was demolished in the late 1950s, as discussed above. As well, the cemetery does not appear to be eligible on the basis of age or persons of transcendent importance. Therefore, the cemetery is not eligible under Criteria A or B. The cemetery does not appear to have a significant designer or exhibit outstanding iconography or artistry. Therefore, it is not important under Criteria C.

Effects Assessment: Not Applicable

Plate 53. House, looking east.

Description:

This 5.15-acre parcel contains a house (primary resource), three equipment barns, and a shed. The one-story, circa 1975 Ranch house has a cross gable roof. The roof is covered with asphalt shingles and walls are clad with vinyl siding, with vertical siding in the gable ends. The house has G-G-D-W-WWWWW-D-W-W fenestration with sliding windows. A centrally located bay window has casement windows. A concrete step accesses the recessed front door, which is tucked under the front gable roof line. An integral two-car garage is located on the north elevation and has paneled metal rolltop doors with a row of fixed lights. The foundation is not visible from the right-of-way.

Three equipment barns of varying sizes are located east and northeast of the primary resource. Historic aerial photographs indicate that these were constructed between 1984 and 1991. Their front gable roofs are covered with metal panels and its walls are metal. Sliding doors are located in the south elevation. There is a wood shed northeast of the primary resource.

Plate 54. Equipment barns, looking east.

NRHP Eligibility: Not Eligible

This property is recommended *Not Eligible* for the NRHP. It is not a notable example of a mid-to-late twentieth century house in Dakota County. It does not display the distinctive characteristics of a type of building design that is rare or innovative in the region or state, nor is it an example of an important common type; therefore, it is not eligible for the NRHP under Criterion C. This property does not have an association with a significant person; therefore, it is not eligible for the NRHP under Criterion B. Finally, the property does not have an association significant to the history of Dakota County, and is therefore not eligible under Criterion A.

Plate 56. House and outbuilding, looking north.

Description:

This 78.9-acre parcel contains a house (primary resource), a barn, an outbuilding, two equipment barns, two sheds, and a silo. The one-and-one-half-story, circa 1910 house has a front gable roof. There are two gable roof dormers on the east (main) elevation and a shed roof dormer on the west (rear) elevation. The roof is covered with asphalt shingles and walls are clad with vinyl siding. The house has a bay window on the east elevation and a hipped roof enclosed porch on the south elevation. Windows are 1/1. There is an interior brick chimney. The house rests on a poured concrete foundation.

A gambrel roof barn is located northeast of the primary resource. It has shed roof additions to the south and east elevations. Its roof is covered in metal panels and walls are vertical board-and-batten wood siding. The east addition has metal siding. There is a concrete stave silo immediately south of the barn. North of the primary resource is an outbuilding with a steeply pitched front gable roof. Walls are clad with vertical siding and there is an interior brick chimney. A front gable equipment barn with a shed roof

addition on the south elevation is located north of the primary resource. It has a roof covered with metal panels and walls clad in metal. The other equipment barn and sheds are not fully visible from the right-of-way.

NRHP Eligibility: Not Eligible

This property is recommended *Not Eligible* for the NRHP. It is not a notable example of a mid-to-late twentieth century Ranch house in Farmington or Dakota County. It does not display the distinctive characteristics of a type of building design that is rare or innovative in the region or state, nor is it an example of an important common type; therefore, it is not eligible for the NRHP under Criterion C. This property does not have an association with a significant person; therefore, it is not eligible for the NRHP under Criterion B. Finally, the property does not have an association significant to the history of Farmington or Dakota County, and is therefore not eligible under Criterion A.

Effects Assessment: Not Applicable

Circa 1880

2079 240th Street West

Castle Rock Township, MN 55024

44.601889, -93.107948

Plate 85. House, looking northwest.

Description:

This 59.02-acre parcel contains a house (primary resource), two silos, a barn, and a shed. The two-story, circa 1880 Gabled Ell house has a cross gable roof. The roof is covered with asphalt shingles and the walls are clad with wood siding. The house has W-D-W-WW-W fenestration with 2/2 wood windows flanked by non-operation shutters. The door is located under a covered porch topped with a half-hipped roof. A single-story addition is attached to the east elevation and a single story rear addition is attached to the north elevation. The foundation was not visible at the time of the survey.

All secondary resources are located to the north of the primary resource. The shed is located near the primary resource. It is topped with a front gable roof covered with asphalt shingles. Further north are two concrete stave silos. The arched barn rests on a raised concrete block foundation. This barn may have served as a dairy barn originally. A single-story frame addition is attached to the east elevation.

Plate 86. Silos and barn, looking northwest.

NRHP Eligibility: Not Eligible

This property is recommended *Not Eligible* for the NRHP. It is not a notable example of a Gabled Ell house in Farmington or Dakota County. It does not display the distinctive characteristics of a type of building design that is rare or innovative in the region or state, nor is it an example of an important common type; therefore, it is not eligible for the NRHP under Criterion C. This property does not have an association with a significant person; therefore, it is not eligible for the NRHP under Criterion B. Finally, the property does not have an association significant to the history of Farmington or Dakota County, and is therefore not eligible under Criterion A.

Plate 87. House, looking south.

Description:

This 16.6-acre parcel contains a house (primary resource), a shed, and a barn. The one-story, circa 1969 Ranch house has a cross gable roof. The roof is covered with asphalt shingles and walls are clad with metal siding. The house has G-WWW-D-W-W fenestration with casement and sliding windows constructed of an undetermined material. The non-historic door is flanked by one sidelight. An interior brick chimney is located near the ridge of the roof. The foundation was not visible at the time of the survey.

Located on the property is a frame shed clad in metal siding. It is currently used for log storage. To the east of the primary resource is a circa 1975 barn clad in metal siding and topped with a front gable roof.

Plate 88. Barn, looking north.

NRHP Eligibility: Not Eligible

This property is recommended *Not Eligible* for the NRHP. It is not a notable example of a mid-to-late twentieth century Ranch in Farmington or Dakota County. It does not display the distinctive characteristics of a type of building design that is rare or innovative in the region or state, nor is it an example of an important common type; therefore, it is not eligible for the NRHP under Criterion C. This property does not have an association with a significant person; therefore, it is not eligible for the NRHP under Criterion B. 1226 240th St. West

Castle Rock Township, MN 55024

44.601072, -93.090773

Plate 89. House, looking south.

Description:

This 1.49-acre parcel contains a house (primary resource), a frame shed, and a garage. The Tri-Level, circa 1976 house has a front gable roof with exposed rafter tails. The roof is covered with asphalt shingles and the walls are clad with vinyl siding. The house has W-D-W fenestration with sliding windows constructed of an undetermined material. Two concrete steps access the door from the side, which is tucked under the front gable roof line. An exterior concrete block chimney is located along the rear elevation. The foundation was not visible at the time of the survey. A wood deck addition is located along the west elevation.

There is a frame shed located northeast of the primary resource. A detached garage is located west of the primary resource. The garage is clad in vinyl siding and has a front gable roof covered with asphalt shingles. It contains two roll top doors and rests on a concrete block foundation.

Plate 90. House, looking northeast.

Description:

This 15.31-acre parcel contains a house (primary resource), a grain bin, a shed, a barn, and two equipment barns. The single-story, circa 1954 house has a hipped roof. The roof is covered with asphalt shingles and the walls are clad with vinyl siding. The house has W-D-W fenestration with 1/1 vinyl windows. The dwelling rests on a brick foundation. The house is sited on a slope and there is a walk-out basement.

Located to the north of the primary resource are two metal clad equipment barns; the larger of the two was built circa 2005. To the southwest of the primary resource is a metal grain bin. A shed clad in metal is located to the south of the dwelling. To the east of the primary resource is a barn clad in metal siding and topped with a front gable metal roof. The barn rests on a concrete block foundation and has a shed addition attached to the rear elevation.

Field Site 108

Trunk Highway 50

XX-ROD-00070

Circa 1921

County Highway 50 between JCT CH 79 and JCT .16 miles east of Annette Avenue

Castle Rock Township, MN 55024

44.630426, -93.076201 (west end point) and 44.630396, -93.052211 (east end point)

Plate 94. Trunk Highway 50, looking east from western edge of APE.

Description

The portion of Trunk Highway 50 that lies within the APE runs between the junction of Dakota County Highway 79 on the west to a point approximately .16 mile east of the junction with Annette Avenue. This approximately 1.17 stretch of highway is a two-lane bituminous roadway with undivided travel lanes and narrow paved shoulders. The highway runs in an east – west direction. The area surrounding the highway is primarily flat agricultural land with residential subdivisions.⁵¹

⁵¹ Mead & Hunt, Inc. Trunk Highway 50 – Minnesota Architecture- Inventory Form, 2020.

Plate 95. Trunk Highway 50, looking west from eastern edge of APE.

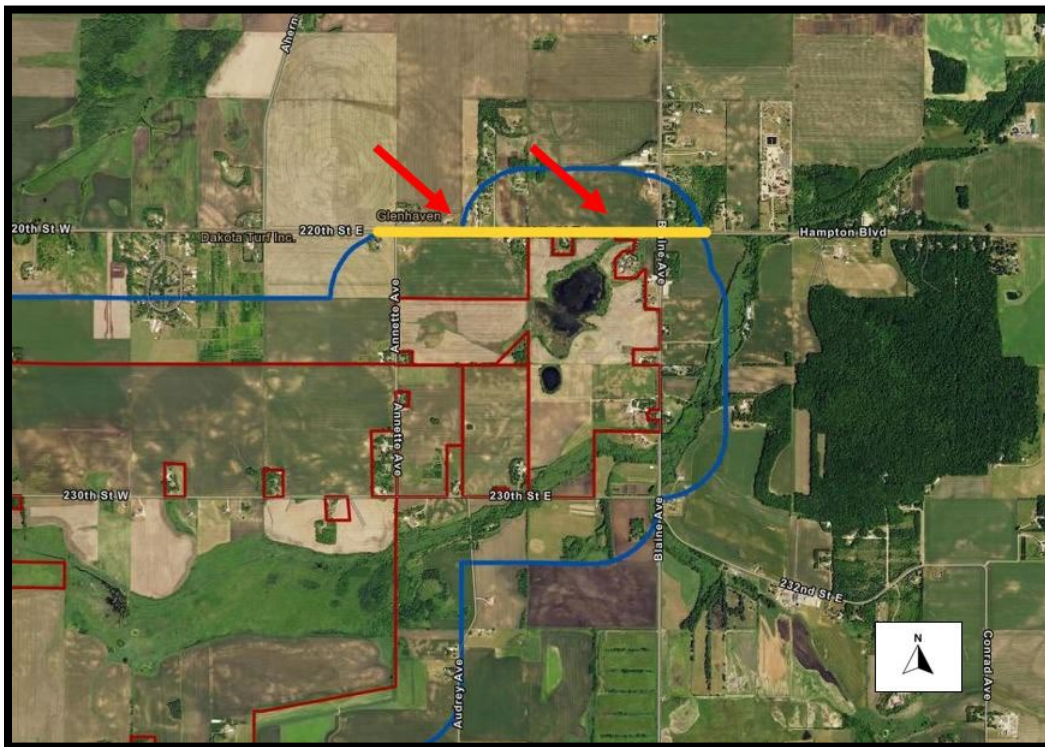

Figure 12. Location of Trunk Highway 50 within the APE (indicated with yellow line and red arrows).

PUBLIC DOCUMENT - NONPUBLIC DATA HAS BEEN EXCISED

NRHP Eligibility: Not Eligible

Trunk Highway 50 was previously evaluated in 2013 as part of the *Evaluation Report and Historic Context: Minnesota Bridges, 1955-1970 (including Trunk Highway Evaluations)* and as part of the *Minnesota Trunk Highways (1921-1954): Historic Context and National Register Evaluation and Integrity Considerations* and as part of the *Minnesota Trunk Highways (1955-1970): Historic Context and National Register Evaluation and Integrity Considerations*, both completed in 2018. A Phase II Evaluation of the was completed as part of the *Minnesota Trunk Highways* historic context.

Trunk Highway 50 was recommended Not Eligible for listing in the NRHP in 2018 with MnSHPO concurrence, also in 2018. Stantec agrees with this assessment and has no new information to provide concerning its NRHP eligibility.

Effects Assessment: Not Applicable

Plate 96. Bridge 91168, looking southeast.

Description:

This 1925 cast-in-place concrete box culvert is located over a stream on Trunk Highway 50, 3.9 miles east of Farmington. The barrel length of this culvert is 34 feet, with a main span length of 10 feet and a structure length of 11.3 feet. The interior diameter is 3 feet. The two-lane bituminous roadway (Trunk Highway 50) with two-way traffic over the culvert measures 28' wide, with an approximate surface width of 34 feet. Horizontal object markers indicate the location of the culvert. In 1990, Laminex treated timber extensions were added to the north and south ends. Grass-covered slopes and plate beam guardrails were added to the north and south of the culvert in 2018.⁵²

5

SUMMARY AND RECOMMENDATIONS

Based on the historic context developed and the field survey results, Stantec recommends that none of the 45 field sites surveyed within the APE for this undertaking, retains sufficient historic integrity and/or significance to be eligible for listing in the NRHP. A more detailed analysis for each property is included in Section 4 of this report.
